Season's Greetings!

As we wrap up another incredible year, we have much to celebrate and be thankful for at Composite Manufacturing & Design. This year marks a significant milestone as we celebrate our 20th anniversary! Over the past two decades, we've grown, innovated, and achieved remarkable success, thanks to the dedication and support of our amazing team and loyal customers.

We are thrilled to announce the successful completion & delivery of another 3 pilot boats this year. Each boat is a testament to our craftsmanship, attention to detail, and dedication to meeting the highest standards of performance and safety.

Our trailer sailer, designed by BYD Naval Architects, the BTC 22, made waves at this year's Southampton Boat Show, performing exceptionally well and garnering praise from experienced and new sailors alike. This success highlights our commitment to designing and building top-quality vessels that exceed expectations at a very competitive price point!

Looking ahead, we are excited to announce our commitment to using more sustainable materials in 2025. As we continue to innovate, we are dedicated to reducing our environmental impact and promoting sustainability in all aspects of our business.

Thank you for being a part of our journey. We wish you a joyous holiday season and a prosperous New Year!

Warm regards, Warwick Buckley
